

LOKESH MUNAKALA

Visakhapatnam, Andhra Pradesh, India

📞 +91 7396287000 | ✉️ munakalalokesh222@gmail.com | 🔗 [linkedin.com/lokesh-munakala](https://www.linkedin.com/lokesh-munakala) | 🌐 github.com/Lokesh0018 | 🌐 lokesh0018.github.io

Skills

Languages: Java, Python, JavaScript, TypeScript, SQL, C/C++
Frontend: React.js, HTML5, CSS3, DOM Manipulation
Backend: Spring Boot, Node.js, Express.js, RESTful APIs, MVC Architecture
Databases & DevOps: MySQL, PostgreSQL, MongoDB, Docker, AWS (EC2, S3), CI/CD, Git, GitHub
Core Concepts: Data Structures & Algorithms, REST APIs, System Design, DBMS, Operating Systems, Full Stack Development, Authentication (JWT, OAuth), Performance Optimization, API Integration

Education

Raghu Institute of Technology <i>B.Tech in Computer Science and Engineering</i> CGPA: 8.6/10	Sep 2023 – May 2026 Visakhapatnam, India
Government Polytechnic College <i>Diploma in Computer Engineering</i> GPA: 7.7/10	Sep 2020 – Mar 2023 Anakapalli, India

Experience

Tilicho Labs <i>Software Development Engineer Intern</i> – Architected and deployed full-stack web applications utilizing React.js , Node.js , and Express.js , delivering high-performance features for production environments. – Designed and integrated secure REST APIs , significantly reducing application load times.	Jan 2026 – Jun 2026 On-site
Visakhapatnam Port Authority <i>Software Development Intern</i> – Developed an internal employee feedback management system leveraging modern backend architectures to streamline organizational communication. – Implemented CRUD operations and collaborated on backend services to ensure reliable storage and retrieval of employee feedback data.	Dec 2022 – Jun 2023 On-site

Projects

Result Scale – Secure Result SaaS <i>React.js, Node.js, MongoDB, Firestore</i> – Engineered a scalable multi-tenant SaaS platform with the frontend hosted on Firebase and backend on Render , utilizing database sharding across MongoDB and Firestore to manage high-volume examination results. – Architected a robust authentication pipeline featuring OTP verification , Role-Based Access Control (RBAC) , and expiring result links to ensure strict data privacy.	GitHub Live
Hall Ticket Generator (OTP & Multi-Admin) <i>Spring Boot, React.js, MySQL</i> – Developed a full-stack system for managing examination hall tickets, focusing on secure distribution through a robust multi-admin control panel. – Built secure RESTful APIs backed by MySQL , implementing dynamic PDF generation and OTP authentication to enforce secure access control.	GitHub
Git Intel – Developer Profile Analysis Platform <i>React.js, Express.js, GitHub APIs</i> – Architected a serverless, client-side intelligence platform using React and TypeScript that interfaces directly with the GitHub REST API to parse candidate metadata and repositories. – Engineered a local, rule-based analysis engine to evaluate developers by deep-parsing package.json dependencies for skill extraction and calculating heuristic scores for code quality and activity consistency.	GitHub
Full-Stack Web Applications Suite <i>React.js, Spring Boot, MySQL</i> – Built 5+ production-style web applications including Student Management, Authentication System, Todo, and Google Search Clone using React.js , Spring Boot , and MySQL . – Constructed responsive, user-centric frontends, integrating them seamlessly with resilient MySQL databases for robust data persistence. – Implemented secure authentication, optimized CRUD operations , and efficient API integrations .	GitHub

Certifications

Tilicho Labs – Internship	View	NPTEL – Python (Elite+Silver)	View
Visakhapatnam Port Authority – Internship	View	NPTEL – Data Science (Elite)	View
AND Intern – Virtual Internship	View	AWS Academy – Cloud Architecting	View
NPTEL – Java (Elite+Silver)	View	AWS Academy – Cloud Foundations	View
