

LOKESH MUNAKALA

Visakhapatnam, Andhra Pradesh, India

☎ +91 7396287000 | ✉ munakalalokesh222@gmail.com | [in linkedin.com/lokesh-munakala](https://www.linkedin.com/lokesh-munakala) | github.com/Lokesh0018

Skills

Languages: JavaScript (ES6+), TypeScript, Java, Python, SQL, HTML5, CSS3

Frontend Technologies: React.js, Tailwind CSS, Bootstrap, Redux, DOM Manipulation

Backend Technologies: Node.js, Express.js, Spring Boot, RESTful APIs, MVC Architecture

Databases & DevOps: MySQL, PostgreSQL, MongoDB, Docker, AWS (EC2, S3), CI/CD, Git, GitHub

Core Concepts: Full Stack Development, System Architecture, Authentication (JWT, OAuth), Performance Optimization, API Integration

Education

Raghu Institute of Technology

B.Tech in Computer Science and Engineering | CGPA: 8.6/10

Sep 2023 – May 2026

Visakhapatnam, India

Government Polytechnic College

Diploma in Computer Engineering | GPA: 7.7/10

Sep 2020 – Mar 2023

Anakapalli, India

Experience

SHM Technologies

Aug 2026 – Present

Full Stack Developer MERN

On-site

- Engineered and maintained robust full-stack web applications utilizing the MERN stack (MongoDB, Express, React, Node.js).
- Collaborated with cross-functional teams to design scalable backend architectures and intuitive frontend user interfaces.

Tilicho Labs

Jan 2026 – Jun 2026

Full Stack Developer Intern

On-site

- Spearheaded end-to-end development of feature-rich web applications utilizing the MERN stack (MongoDB, Express, React, Node.js), improving user retention by 20%.
- Bridged frontend and backend operations by integrating React.js UI components with custom RESTful APIs, reducing data transmission overhead by 30%.
- Implemented comprehensive automated testing frameworks across the stack, ensuring robust deployments and minimizing production bugs.

Visakhapatnam Port Authority

Dec 2022 – Jun 2023

Software Development Intern

On-site

- Developed a cohesive internal employee portal, seamlessly linking a responsive HTML/CSS interface with robust backend database services.
- Designed relational SQL schemas and developed full CRUD functionality, optimizing data flow and enhancing organizational reporting efficiency.

Projects

Result Scale – Comprehensive SaaS Application | React.js, Node.js, MongoDB, Firebase

[GitHub](#) | [Live](#)

- Engineered a complete multi-tenant SaaS application, utilizing React.js for an intuitive frontend interface and Node.js for scalable backend processing.
- Successfully integrated cross-platform database sharding using MongoDB and Firestore, maintaining high performance under heavy concurrent usage.
- Architected full-stack security implementations including OTP verification and stateful Role-Based Access Control (RBAC).

Hall Ticket Generator API System | Spring Boot, React.js, MySQL, REST

[GitHub](#)

- Constructed a cohesive full-stack platform by coupling a modern React.js dashboard with a highly secure Spring Boot enterprise backend.
- Engineered reliable REST APIs connected to a MySQL database, enabling dynamic server-side PDF generation and secure client-side delivery.

Git Intel – Analytics Platform | MERN Stack, GitHub API Integration

[GitHub](#)

- Developed an end-to-end data processing platform linking a highly interactive React UI with an Express proxy server.
- Streamlined external API data aggregation, executing complex backend analytics and displaying the results seamlessly via real-time frontend dashboards.

Certifications

AWS Academy – Cloud Architecting
